

STATE OF NORTH CAROLINA
DEPARTMENT OF TRANSPORTATION

BEVERLY EAVES PERDUE
GOVERNOR

EUGENE A. CONTI, JR.
SECRETARY

August 6, 2010

To Contractors and Consultants:

Subject: Online Prequalification System

Thank you for using the Department's Online Prequalification System. The online system will allow any firm wishing to perform work as a prime contractor, subcontractor, or private consulting firm on Department projects to apply, renew, requalify, or change information. You can find the Online Prequalification System at the following website:

<https://apps03.dot.state.nc.us/vendor/prequal/>

Once you get to the website, the first step will be to register with NCID (North Carolina Identity Management Service) in order to access the system. From the webpage, click on the First Time User link. Once you have completed the registration and submitted your request, the second step will be to have your NCID User ID authorized so that your firm may access the Prequalification System. In order to complete this second step, the information at the top of the following page will need to be sent to our office. Upon satisfactory receipt of your information, we will authorize your firm to use the Prequalification System. Once your NCID User ID has been authorized, you will need to go back to the above website. Log in using your NCID User ID and password. This will take you into the application.

Once you are in the application, you should see your federal tax identification number displayed. Click the "Look Up" button to search for your firm's name. At the next screen, click on your firm's name and proceed through the application. If your name is listed several times, click on the first one that bears the address that you are prequalifying. (If you receive an error message, click "Okay." Then click on the text "Create New Location.") Select the type(s) of application you wish to complete, click the "Next" button, and then complete the information on the screens that follow. Please note that the terms Bidder (Prime Contractor) and Subcontractor are referring to firms that only perform highway construction and not consulting. The category Private Consultant refers to both Prime and Sub Consultants. For now, POC (Purchase Order Contract) Prime Contractors should use the Subcontractor category and notify our office that they are applying to perform as a POC Prime. If you have questions along the way, please call our staff listed on the next page.

Instructions for authorization of your NCID User ID for the Online Prequalification System:

Before using this system, you will need to obtain authorization from NCDOT. Please submit the following information to NCDOT on your company's letterhead:

- NCID User ID
- Your Name (that was registered with NCID)
- Contact Phone Number
- Contact Email
- Company Name
- Federal Tax ID for the company applying
- Name, title, and signature of an officer of the firm

Mail the request to:

NCDOT

Contractual Services Unit
Prequalification Section
