Failure by the Contractor or its personnel to comply with any of the provisions of this contract or instructions given by the Engineer or his duly authorized representative with regard to traffic control operation or the safety of job site personnel or the public shall result in suspension of work and may result in termination of the contract.

Compensation for providing traffic control will be made at the contract unit price per hour for "Traffic Control Services". Such payment will be full compensation for all work covered by this section including, but not limited to, furnishing a crew consisting of one qualified supervisor and three qualified flagmen, a suitable truck and trailer, signs, and stop/slow paddles required for the traffic control operation throughout the project limits, installing, maintaining, relocating and removing all traffic control devices as directed by the Engineer and conducting the traffic control operation in a manner that will be safe for the traveling public, the contractor, and Department personnel on the job site.
