

APPENDIX 7: RESUMES OF KEY PROJECT PERSONNEL

JOEL D. GUNN

Education

1974, Ph.D., Anthropology, University of Pittsburgh.
1971, M.A., Anthropology, University of Kansas.
1968, B.A., History, University of Kansas.

Certifications

1993 Society of Professional Archaeologists

Areas of Specialization

Archaeology: Lithic analysis, Settlement Patterns, Numerical Analysis, Data Management. Climatology: Global-Regional Climatic Impacts, Tree rings, Hydrology, Social Impacts.

Summary of Experience

Dr. Gunn is a well respected professional archaeologist with 20 years experience in the field. His background includes teaching at major universities, pure research, and archaeological contracting, and his field experience has been gained on archaeological sites in the Middle Atlantic and Southeast. He has most recently conducted projects in North and South Carolina, Virginia, and Texas.

Formerly a professor at the University of Texas at San Antonio, Dr. Gunn has pursued contract archaeology in the private sector since 1989. He has been a Senior Archaeologist for Garrow & Associates since 1991. He has directed projects throughout the Southeast.

Dr. Gunn's areas of emphasis are lithic analysis and global climate change as it affects regional prehistoric ecology, land use patterns, and technology. He has published numerous books, articles, chapters, and reports on lithic analysis and climate modeling.
