

VI. Conclusion

Locust and Stanfield are growing communities that will require improvements to their transportation systems over the next thirty years. It is the responsibility of the City and Town to take the initiative for the implementation of the Comprehensive Transportation Plan. It is imperative that the local areas aggressively pursue funding for desired projects. Questions regarding funding, projects, planning, and modes of transportation should be addressed to the appropriate Branch within NCDOT. **Appendix A** includes contact information for many of these Branches. If changes are required for any element of the Comprehensive Transportation Plan, then all other elements must be reviewed for resulting impacts. Prior to implementation of any transportation projects, additional public involvement and analysis of impacts to the natural environment will need to be conducted.
